Source Data for the Official Soil Survey

Davidson County - General

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication included soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the USDA Service Center, NRCS Field Office, and designated as the "Official Copy". This official copy was established to maintain the most current soil information for a survey area.

The Davidson County soil survey was published in 1994 and remains the official source of soil maps. The soil maps are in the process of being digitized and will be available at no charge from this web site. The official source of soil data is the NASIS database. The tabular data may be downloaded from:

<http://soildatamart.nrcs.usda.gov/Download.aspx?Survey=NC057&UseState=NC>

A web based set of data is also available. Interpretations and data may be accessed at:

<http://soildatamart.nrcs.usda.gov/Report.aspx?Survey=NC057&UseState=NC>

The data on this site is the most current available.

Copies of the published soil survey are available from:

LEXINGTON FIELD OFFICE

TELEPHONE: (336) 248-2687 **FAX:** (336) 242-2982

Mailing Address: 301 East Center Street, Davidson Agricultural Center, Lexington, NC 27292.
